Dear Parent

“Health and Sickness is from Allah. So we should believe on Allah.”

It is indeed important for children to **offer prayer timely**, follow a healthy routine of taking nutritious food, regular sleep and physical exercise. Avoid junk food and cold drinks.

In the view of critical situation of corona virus, it is advised to keep all students at home. As Al-Barakah School cares for holistic development of our students, we want to keep them safe and healthy while academically engaged. Keeping this in mind, we have developed a booklet **“Home Assignment”** to keep them busy at home by utilizing time effectively.

The tasks have been selected according to ability of students, but **they will certainly need your supervision and guidance. But most of it can be easily done by the students themselves. Your encouragement is required to enable students to read their books and attempt the given tasks by them. Making mistakes is also the part of learning.**

In this situation there are two main issues for school as well as for parents: one is to cover the syllabus another one is to engage our students. This is also a golden opportunity to overcome weakness like poor handwriting, spelling or mathematical & science concepts.

The submission date of this assignment is 7-April-2020 (Tuesday).

On the submission of this assignment, you will be given a test relating to the course covered during the week. Parents will take that test at home.

We will also take a short viva of students to check the performance.

May Allah keep us all in His hifz o Amaan.

Thanks and best regards

English solved notes

سبق 2 خاندانی اقدار

ایک دفعہ کا ذکر ہے ایک کسان تھا جس کے وہ بیٹے تھے۔ بڑا بیٹا باپ کا بہت مددگار تھا لیکن چھوٹا بیٹا بڑا بے صبر تھا۔ بڑا بیٹا ہمیشہ چھوٹے بیٹے کی بھائی کا خیال رکھتا تھا۔ چھوٹے بیٹے کو کھیتوں کام کرنا پسند نہیں تھا۔ اس نے اپنے باپ سے کھیتوں میں سے اپنا حصہ مانگا۔ بڑے بیٹے نے اسے ایسا کرنے سے روکا لیکن اس نے کسی کی بات نہ مانی۔ اس نے کھیت بیچا اور چلا گیا۔

چھوٹے بیٹے نے چند دوستوں کی دعوتیں کر کے خوب لطف اٹھایا۔ کچھ دنوں کے بعد اس کی دولت ختم ہوئی گئی۔ اس کی مالی حالت کو دیکھتے ہوئے اس کے دوستوں نے اس کا ساتھ چھوڑ دیا۔

اسے یاد آیا کہ اس کا باپ اور بھائی اس پر کتنے مہربان تھے اور خواہش کی کہ اس نے گھر نہ چھوڑا ہوتا۔ پس اس نے گھر واپس آنے اور معافی مانگنے کا فیصلہ کیا۔ وہ نہیں جانتا تھا کہ اس کے باپ نے اس کو کتنا یاد کیا ہے اور چاہتا ہے کہ وہ واپس آجائے۔ پھر جب اس نے اپنے باپ کو دیکھا تو اپنے باپ کی ہانہوں میں گر گیا۔ باپ نے اسے گلے لگالیا اسے عمدہ لباس پہنایا۔

چھوٹے بیٹے نے اپنے باپ اہر بھائی سے وعدہ کیا وہ کھیتوں میں محنت کرے گا۔ اس نے اپنے خاندان اور بزرگوں کی عزت کرنا سیکھ لی۔

MATHS

Comparing 4 and 5-digit numbers

Remember how hungry Crocodile checks to see which of the two numbers is greater? He always goes for the bigger number. When he compares 4698 and 4693, he finds that the digits at thousands, hundreds, and tens places are the same, but at the ones place 8 is greater than 3. It means 4698 is greater than 4693.

| Th | H | T | O |
|----|---|---|---|
| 4 | 6 | 9 | 3 |
| 4 | 6 | 9 | 8 |

REMEMBER

First check the thousands.
Secondly, the hundreds.
Then check the tens and lastly, the ones.

$$4698 > 4693$$

$$4693 < 4698$$

$>$ means "greater than"
 $<$ means "smaller than"

Examples:

- 1625 is greater than 1620
 $1625 > 1620$ (Which digits did you compare?) ones
- 2750 is less than 4750
 $2750 < 4750$ (Which digits did you compare?) thousand
- Fill in the symbols $>$ or $<$.

a. $9562 \boxed{>} 9362$

Check the thousands:

$$9 = 9$$

Check the hundreds:

$$5 > 3$$

$$\therefore 9562 \boxed{>} 9362$$

b. $14359 \boxed{<} 14369$

Check the ten thousands:

$$1 = 1$$

Check the thousands: $4 =$

Check the hundreds: $3 =$

Check the tens: $5 < 6$

$$\therefore 14359 \boxed{<} 14369$$

When numbers are arranged from largest to the smallest they are said to be in descending order.

Example:

1111, 1359, 1001 \rightarrow 1359, 1111, 1001

Ascending order \nearrow
